Please **AMEND** the above-identified application as follows:

## IN THE CLAIMS: CLAIM AMENDMENTS CLEAN VERSION

Please **SUBSTITUTE** the following claims for the pending claims of the same number. The claims that have been amended herein are so labeled and indicated in **bold** face font:

1. (TWICE AMENDED) A method for directing a computing device to conduct a game of chance, the method comprising the steps of:

generating a subject game element having a first class;

displaying the subject game element, thereby displaying an indicia of the first

class;

in response to expiration of a period of time that is measured from a time of player selection of the subject game element having the first class, assigning a second class to the subject game element; and

displaying the subject game element, thereby displaying an indicia of the second class.

- 37. The method of claim 1, further comprising erasing the indicia of the first class.
- A method for directing a computing device to conduct a game of chance, the method comprising the steps of:

generating a subject game felement having a first class;

displaying the subject game element, thereby displaying an indicia of the first

class; and

displaying an indicia representing forthcoming expiration of the first class corresponding to the subject game element.

- The method of claim 38, wherein the step of displaying an indicia representing forthcoming expiration of the first class includes displaying a countdown display.
  - 40. A method for directing a computing device to conduct a game of chance, the method comprising the steps of:

generating a subject game element having a first class;

displaying the subject game element, thereby displaying an indicia of the first

class; and

actuating a lock button to prevent the subject game element from expiring.

## Please ADD the following new claims:

41. (NEW) An apparatus, comprising:

a storage device; and

a processor in communication with the storage device,

the storage device storing a program for controlling the processor; and

the processor operative with the program to: perform the method of claim.

42. (NEW) A medium encoded with a program for implementing a method, said program for directing a device to perform the steps of:

the method of claim 1.

42. (NEW) An apparatus, comprising:

a storage device; and

a processor in communication with the storage device,

the storage device storing a program for controlling the processor; and

the processor operative with the program to:

perform the method of claim 38.

(NEW) A medium encoded with a program for implementing a method, said program for directing a device to perform the steps of:

the method of claim 38.

45. (NEW) An apparatus, comprising:

a storage device; and

a processor in communication with the storage device,

the storage device storing a program for controlling the processor; and

the processor operative with the program to:

perform the method of claim 40.

46. (NEW) A medium encoded with a program for implementing a method, said program for directing a device to perform the steps of:

the method of claim 40.
